

STATE POLICIES

Karnataka GCC Policy (2024–29)

- ◆ Karnataka provides GCC incentives including 50% stipend and IP reimbursements, 20% skilling cost refunds, leadership training, 40% innovation lab funding, ₹1.5 crore for public challenges, and fast-tracked connectivity approvals.
- ◆ GCCs expanding beyond Bengaluru receive incentives including 50% rental reimbursement (up to ₹2 crore), R&D grants (40% or ₹50 crore), ₹3,000 EPF reimbursement per employee for two years, and 25% internet expense reimbursement for three years.
- ◆ Karnataka supports academic institutes with ₹10,000 per student funding, 50% research funding (up to ₹1 crore), co-working cost reimbursement for real estate, and PPP-mode GCC Immersive Hubs for industry innovation and R&D promotion.

Start-up Policy for NCT of Delhi (2019)

- ◆ The Delhi Start-up Policy 2019 aims to make Delhi a leading startup hub by promoting entrepreneurship, innovation, and skill development.
- ◆ It includes initiatives like incubation centres, funding support, simplified regulations, along with incentives such as tax exemptions, subsidies, and access to infrastructure and mentorship.
- ◆ A collaborative approach and monitoring framework ensure effective implementation, driving economic growth and job creation through a supportive start-up ecosystem.

Maharashtra GCC Policy (2025)

- ◆ Aims to establish Maharashtra as a top GCC hub by attracting 400+ GCCs and creating 4,00,000 high-skill jobs over the next five years.
- ◆ Offers capital subsidy (up to 20% of investment) or rental subsidy (10% to 20% of rent), with caps based on the GCC classification (Small, Ultra Mega), along with payroll incentives up to ₹50,000 per employee per month for high-skill talent.
- ◆ Provides power tariff subsidy (₹1–2/unit) capped at ₹20 lakh, 10-year electricity duty exemption, and 25% R&D reimbursement up to ₹2 crore, including 50% patent-filing reimbursement up to ₹5 lakh.
- ◆ Develops GCC Parks across Mumbai, Pune, Nagpur, and Nashik, supported by a unified GCC Facilitation Cell, 24×7 operations approval, and diversity-linked bonus incentives.

Tamil Nadu Semiconductor and Advanced Electronics Policy (2024)

- ◆ The Tamil Nadu Semiconductor and Advanced Electronics Policy 2024 aims to position Tamil Nadu as an industry leader by attracting investments, nurturing talent, and fostering collaborations.
- ◆ Key incentives include capital subsidies, land cost incentives, and electricity tax exemptions. The policy promotes R&D and prototyping through Centres of Excellence.
- ◆ An empowered committee will oversee implementation. The goal is to generate high-skilled jobs and contribute 40% of India's electronics exports by 2030.

Telangana's Second ICT Policy (2021–2026)

- ◆ The Telangana 2nd ICT Policy 2021 aims to position Telangana as a leading IT and ICT hub by offering incentives, developing infrastructure, supporting innovation, and simplifying business processes.
- ◆ It promotes IT parks, data centres, and incubation centres while enhancing workforce skills through training. An empowered committee ensures effective implementation, driving economic growth and job creation in the IT sector.
- ◆ Additionally, the policy emphasizes digital inclusion and rural development to bridge the digital divide and promote balanced regional growth.

Madhya Pradesh GCC Policy (2025)

- ◆ Positions MP as a GCC hub across Indore, Bhopal, and Jabalpur with cost advantages and strong Tier-2 talent.
- ◆ Offers CAPEX subsidy at 40% of the ECI, with a maximum of ₹15 crore for 'Category A' GCCs and up to ₹30 crore for 'Category B' GCCs. Rental/working capital assistance up to ₹3 crore and ₹10 crore respectively, interest assistance at 6% up to ₹5 crore, and 100% reimbursement of Stamp Duty.
- ◆ Payroll subsidy runs for 3 years, capped at ₹1 lakh annually per eligible employee (salary > ₹1L), with rates of 50% (Y1), 30% (Y2), and 20% (Y3), plus a ₹50,000 skill reimbursement for courses.
- ◆ 100% assistance for filing patents up to ₹2 lakh for domestic and ₹3 lakh for international patents in the policy period, plus 50% support for AI/Cybersecurity CoEs up to ₹10 crore.
